

OASIS CITY

Welcome to a new city in living original conditions. Finished **with** the pollution of used carbon.

Our new technologie **technology** the electricity is produced by **panel solar energy energy from solar panels** which are **to rest on quite houses from the outside**

Our city is particular because it is **has the time at the same time has** on earth and under **the water. An city to was meed under the lake for heatwaves. A part of the city was made in the lake in case of heatwaves.**

SEABUBBLE

Our cars (seabubble) use 0 % of gas **emissions**

The energy of the sun feeds our cars The sun supplies the energy to our cars

They are designed to go under **the** water and on **earth land**

SOLAR PANELS

The electricity is produced by **panels solar** solar panel energy

1 000 solar panels are installed

A pleasant city **wait** **is waiting** for you

The pollution is reduced with our transport
(seabubbles)

A double life under the water and on **earth**
land

A pleasant and warm city
