

Future **cities** **city** in the sky

This city is the **more** **most** ecological because **she took the** **it takes** water **of from** the ocean and filters **s** for you to drink it .

We use solar pannels to **recive** **catch** the solar energy and **we also** use electric cars that are **feeding** **powered** by solar pannels

This city is an advantage for the **poeple** **people** because **e** you can go where you want and **you can** do **most** **more things**.

Activities as **plane with a** gliding **with no danger** **safe** because **by bellow** **down below** there is a big ocean and if you fall, there is a net to **receive** **catch** you.
