

# Endless

Endless is an ecological city, living in this city, there will be plenty of **advantages**, **of advantages** on **the** health, but also to your needs ( food etc.). There would be less pollution ! It's like living entirely in nature, it would be an experience how one(**you**) would feel in nature, discovering new things. It's like a trip, a **vacation holiday**. In a city like Endless no fear **for of** the rain because it **would serve you will be used** to have water with thunders **storms** there will **e** be no power outage(**cut**) **as it is electricals** given that **there are electric** panels. In the endless city we can have infinite(**unlimited**) fields compared to an ordinary ecological city.
