

Maiméli city

The city

Why not dive off Brazil in a futuristic underwater city more than 1,906 meters deep ?

The engineers and the architects will build **the** cars and **buses** which move with wave energy.

This **The** residents go shopping **at to** the market and they go **at the to** work **with a by** public transport.

There are 1,793 people who work and 1,760 who live in Maiméli.

It is the best city of **the** world

Because :

It is **build built** with recycling materials.
We **use litter from** recycling bins **for to**
produce the fertilizer for our garden**s**.

Our city is the funniest and it's the
prettiest city.

Our city is very light with solar panels at
the surface.

The city is more ecological **is form the**
sphere as glass with the shape of a
sphere made of glass. Grace at his we
power observe environment submarin
Thanks to it, we can observe the
submarine environment.
